

Picatinny Arsenal

BRAC 2005 Recommendation:

BRAC 05 recommendations transform Picatinny Arsenal into a more specific and complete Life Cycle Management Command by enhancing its already multi-functional and joint missions associated with both armaments and munitions by consolidating like functions from other installations into a single source. This results in multiple consolidations that directly impact all aspects of weapon system management and cost reductions in acquisition and personnel.

Gains:

- Guns and ammunition Research and Development & Acquisition functions from Indian Head, MD; Crane, IN; Dahlgren, VA; Fallbrook, CA; Port Hueneme, CA; China Lake, CA; Louisville, KY; and Earle, NJ
- Army Research & Development Center Fuse Detachment from Army Research Lab, MD

Losses:

- None
